

Competition Entries – Digital

Digital images should be submitted in the sRGB colour space as high quality jpeg images. The image height for landscape format images should be no more than 1050 pixels (max) and width 1400 pixels (max). For portrait format images the height must be no more than 1050 (max) with the width being a lesser number of pixels. They should be saved as jpeg images with a file name of 'Name of image membership number' eg Bolton Castle 23.jpeg. If you are not sure how to size your images the following shows you how in Photoshop.

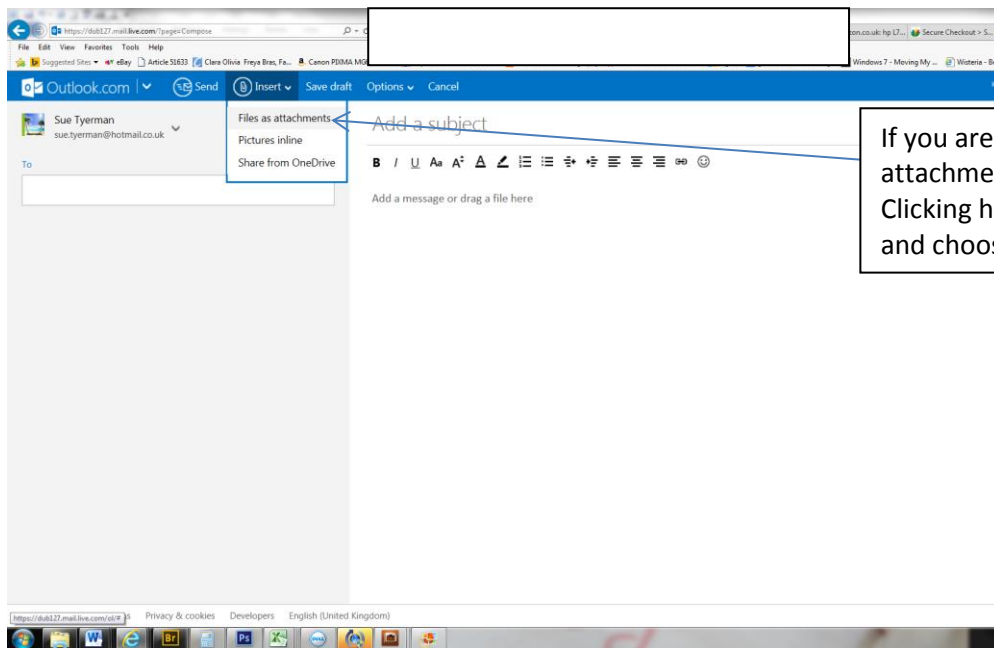

Landscape Images Choose 1400 pixels for the width, the maximum height is 1050 - make sure the constrain proportions box is ticked
Portrait images Choose 1050 height the width must be less than this, make sure the constrain proportions box is ticked.
Square images. Choose 1050 for the height, make sure the constrain proportions box is ticked.

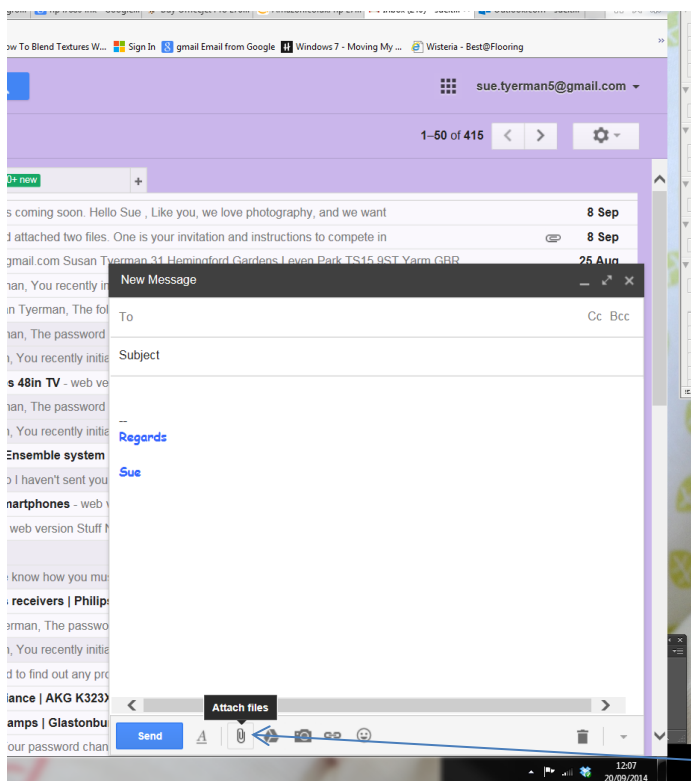

The resolution for the image should be 300 pixels per inch

The images should be emailed as jpeg attachments to the competition secretary. NB Do not send images that are part of the body of the email.

All email providers offer a way of adding files as attachments below are two examples:

If you are using Outlook use 'Files as attachments' to send your images. Clicking here enables you to find and choose your images to attach.

Most other email providers show a paperclip symbol somewhere on the page which you click on to enable you to find the file to upload as an attachment.
